# PEAK REACHED Down Upon Fortiest To Conquer Mt. Everest

## These Made Epic Fight

### Promoted When Succeeded

#### Airmen Fly 35,000-Foot Altitude to Cross Highest Shaft—Promoters of Flight See Great Advantage Gained

PURNA, India, April 4.—Two planes sailed across the summit of Mt. Everest Monday and for the first time in history men looked down upon the highest mountain in the world.

The feat was accomplished by the Marquis of Clydesdale, accompanied by Lieutenant Colonel J. Stewart Blackie, and by Lieutenant D. F. McIntyre, who had with him S. R. Bonnett, an expert photographer.

The photographer succeeded in taking a number of pictures which, it is hoped, would provide an authentic record of the conquest of the 29,141 foot mountain on the side of which numerous runs had been attempted by old-fashioned methods to gain the honor of being the first to reach the top.

#### 25,000 FOOT ALTITUDE

The two planes flew to an altitude of 35,000 feet in 10 minutes. At the peak they found a wind velocity of 40 miles an hour.

Lieutenant McIntyre apparently suffered considerably from frost, but Lord Clydesdale, who is cheerful when he landed after the flight, said he was not at all affected.

Although exhaustive preparations had been made for the flight over Everest, the actual carrying out of the feat was in a measure accidental. The planes were only intended to be used in the event of a bad day.

#### SEND UP BALLOON

This was determined by sending up a weather balloon, which reached an altitude of 35,000 feet, and it was found that the wind velocity was only 40 miles an hour.

When this had been obtained the flyers left Purna, which is about 100 miles from Mt. Everest, in two biplanes, seven miles to the north, where the planes were waiting for them, loaded with full equipment necessary for the flight into the high thousands of feet above the surface of the earth.

Lord Clydesdale and Blackie took off at 8:15 a.m. and after taking off at 8:15 a.m. a minute later McIntyre followed them. A reserve pilot, Flying Officer W. Ellison, went out to escort the planes over the last peak.

Lord McIntyre, in a small ship, took off at 8:15 a.m. and after taking off at 8:15 a.m. a minute later McIntyre followed them. A reserve pilot, Flying Officer W. Ellison, went out to escort the planes over the last peak.

#### DOWN UPON GODS

In the eyes of natives living in the Himalayas, the planes which flew over Mt. Everest looked down upon the very gods.

At a special meeting in this section of the world are the people who have been subjected to great restrictions have prevented scientific examination of rock formations in order that the planes were the first to reach the top of the world, where the planes were waiting for them, loaded with full equipment necessary for the flight into the high thousands of feet above the surface of the earth.

#### OBJECTS OF EXPEDITION

"The objects of the expedition," Lord Clydesdale said before leaving England, "are first and foremost to show that the world is not the place of mystery and superstition which the people who daily look up at the mountains have made it."

The success of this flight will have a great psychological effect on the people of the world. It will show that the world is not the place of mystery and superstition which the people who daily look up at the mountains have made it."

The men on the expedition hoped their work would turn out to be a valuable contribution to geographical exploration. In the region are vast tracts of unknown and unexplored territory.

Less spectacular, is to tell us that the men on the expedition hoped their work would turn out to be a valuable contribution to geographical exploration. In the region are vast tracts of unknown and unexplored territory.

#### Daring Airmen Make Another Flight

LONDON, April 4.—The flight over Mount Everest yesterday by Lord Clydesdale and his party was the first in history to see the top of the highest spot in the world, was being watched.

Map showing the flight path of the two biplanes over Mount Everest. The flight path is indicated by a line with arrows, showing the planes' ascent and descent. The map is labeled with 'MT. EVEREST' and 'FLIGHT PATH'.

The Marquis of Clydesdale, Lieutenant-Colonel Blackie and Flying Officer W. Ellison, who had with him S. R. Bonnett, an expert photographer, achieved their goal of flying over the formidable peak, 29,141 feet above sea level. Always Everest is the highest mountain in the world, and the upper stratosphere about its base. The cold is like nothing else about the poles.

### No Basis for Action Says Calgary Labor Member

There was absolutely no basis for the action declared by J. White, Calgary labor member in the Alberta legislature Monday in denouncing charges contained in the case brought against him by Joseph Goulet of Calgary.

Guest action in the supreme court Saturday charging White received \$20,000 from the Alberta government for printing contracts granted him, while he was a member of the legislature, was a stock action on the revised statutes of Alberta containing the \$200 penalty, payable by any one, laying the charges of the court fines the accused person guilty.

In answering the charges, White declared "I have never, directly or indirectly, received a cent by commission, directly or indirectly, for any printing or publishing firm or partnership or a firm or corporation in this province or anywhere else."

White said he welcomed the full investigation into the charges.

## Special Permission Must Be Stamped On Passports Before One Leaves Fatherland Soil

BERLIN, April 4.—Reports from Germany were followed today by a government announcement that after midnight on one may leave Germany without a special permit stamped on his passport by the police.

The government did not explain this action, but for several days there have been reports of a Jewish exodus.

Front of the anti-Jewish daily boycott, business appeared to be going on in Berlin as usual. Jews in the restaurants, however, began to feel new restrictive measures.

In Berlin the number of Jewish lawyers permitted to practice was limited to 25, and in the Frankfurt-on-the-Main, the number of Jewish lawyers on the stock exchange was reduced from 20 to 10.

Protestant Nazis organized in the city.

## Civic Employees To Get Edmonton Bonds Part 1933 Salaries

At a special meeting Monday night city council accepted the principle of issuing City of Edmonton bonds to pay the salaries of civic employees at the rate of 1933 salaries, but decided that these bonds should be issued in five-year terms at a value of 100 rather than the par value of 100, as suggested by the Finance Committee.

This bond scheme, being accepted by council, will be a complete success as from April 1, 1933.

Percentage of salaries which will be contributed toward the purchase of bonds by civic employees will be 100 per cent. The value of the bonds will be \$1,200 to \$1,800, \$1,800 to \$2,400, \$2,400 to \$3,000, \$3,000 to \$3,600, \$3,600 to \$4,200, \$4,200 to \$4,800, \$4,800 to \$5,400, \$5,400 to \$6,000, \$6,000 ### Income Levy Widely Discussed By Members of Legislature

Justification of projected reciprocal agreements with the Dominion and other provincial governments for free inspection of each others income tax returns, was given by the legislative sitting in committee of the whole for Monday during discussion of the bill to end the Income Tax Act.

Discussion on the bill is not completed.

Strong points were advanced that the five per cent penalty on income taxes not paid by March 15, A. D. 1933, would be a hardship on the public.

Counting this suggestion, Hon. J. G. Reid, provincial treasurer, said that the actual date had been well advertised in the newspapers and was the permanent date is provided in the act.

### MAY BE CONFUSION

At that point it was suggested that the date of the act would be as well if the date of the penalty, the bill, was changed to January 1, 1934.

Mr. M. Matheson, U. F. A. representative, thought that the date of the act would be a hardship on the public.

# Civilization Denatured 'Alky' Forms Social Cup At Tribal Calls

Methyl Hydrate and Other Poisons Aferits Passed Around

OTTAWA, April 4.—"Civilization" is savaging the Eskimos of Victoria Island. They have taken to drinking denatured alcohol, according to the report of Corporal Wall of the Royal Canadian Mounted Police. Annual report of this corps was tabled in the House of Commons yesterday.

In paying inter-tribal calls, this poison and methylhydrate are among the terrible poisons around the Eskimo. The Eskimo, however, continues to use their own poisons, but in their ability to resist these poisons, they are slowly being destroyed. Some of the Eskimo, however, are not only in their own poisons, but in their ability to resist these poisons, they are slowly being destroyed. A Fascinating Motion with Albert Edward Wiggins, D.Sc., the Noted Author of The Fruit of the Family Tree

DO GIRLS DO BETTER MENTAL WORK IN THE GRADES HIGH SCHOOL AND COLLEGE BOYS?

IS A YOUNG PERSON CHANGED BY KNOWING MORE OF HIS FRIENDSHIPS AND THE INFLUENCE OF THE HOME?

IS GOODNESS IN MEN AND WOMEN A NATURAL QUALITY RATHER THAN THE PRODUCT OF CIVILIZATION?

**AUTHOR'S NOTE:** These answers are given from the scientific point of view. Not all mental questions can be answered with absolute scientific accuracy, but no question as to what is natural is possible without science. Science tells the truth of individuals.

1.—Yes, and nobody knows exactly why. Yerman, of Stanford, found in the grades, ages of seven to ten, that boys did work of less average quality; while average girls did work of average quality. Until about fifteen girls grew slightly faster than boys and were brighter for age. Beyond that age some students believe girls are more conscientious and more anxious to win praise than boys. Others believe it is because girls are more social and college.

2.—You can no longer doubt that such matters but must mean them. The most comprehensive means on this question were that of 1,000 boys and girls for crawling, lying and stealing, under the direction of the Institute for Religious Research.

Success. Since feeling things over the hand with his stick, Conkier hurried down the wing with four white birds in his arms. Smith suddenly banged the back and rode down alone on the unprotected Chabo. To some, the play was called back for offense and no matter how hard Smith and the other Bruins protested, it was still an offense. The crowd was in a state of confusion. It was for the Bruins when Thoms and Cotton were chased in the corner.

**FIRST OVERTIME PERIOD**  
As Boston laid back to defense, awaiting openings, Leafs attacked. Veeney, Conkier from Ireland to attempt to poke in the rubber. Late in the first period, the Bruins with a body check and Thoms, who had been in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

**SECOND OVERTIME PERIOD**  
Just as the second extra session started, the Bruins were in a state of confusion. Conkier and Thoms were in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

**THIRD OVERTIME PERIOD**  
After Smith had taken in trouble, the Bruins were in a state of confusion. Conkier and Thoms were in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

**FOURTH OVERTIME PERIOD**  
After Smith had taken in trouble, the Bruins were in a state of confusion. Conkier and Thoms were in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

**FIFTH OVERTIME PERIOD**  
After Smith had taken in trouble, the Bruins were in a state of confusion. Conkier and Thoms were in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

**SIXTH OVERTIME PERIOD**  
After Smith had taken in trouble, the Bruins were in a state of confusion. Conkier and Thoms were in the game since the first period, served time. Grace had an open shot on the goal, but it was blocked by Thoms. It was for the Bruins when Thoms and Cotton were chased in the corner.

In Mutuality is Strength

**Like** the many strands that rise strength to a cable, 70,000 policyholders have banded together for common purpose—the fulfillment of their financial plans through profitable life insurance.

North American Life is owned and controlled by those whom it protects and for whom sole security are held assets of over \$1,000,000.

The advantage of mutual life for the company's profit-sharing policyholders lies in the fact that they receive in dividends the entire profits arising from the operation of their business.

Our nearest representative will be glad to tell you why it is in your interests to insure with us.
